

OUR CAPABILITY, **YOUR PEACE OF MIND.**

COMPANY OVERVIEW

www.peritas.au

OUR PURPOSE.

From humble beginnings, Peritas has evolved significantly from our three-person office in 2008 to become a truly national, **West Australian-owned and operated** engineering design consultancy.

With an award-winning civil & structural design team engaged in diverse projects across the engineering spectrum, we embrace the individuality of each engineer, designer, client and project to ensure our service remains bespoke and nimble.

We are here to design better futures, differently.

This purpose and design philosophy supports our overall vision - to **create engineered futures beyond convention.**

With offices in Perth and Melbourne, Peritas has a dedicated team of fifty professionals who provide constructible solutions, cutting-edge technologies, and reliable techniques to deliver integrated engineering solutions that minimise costs, risks and time-frames for clients.

Founders | (L-R) Christian Stanes (CEO), Kim Stanes (Chief Operations Officer), Leigh Stanes (Chief Projects Officer)

OUR EXPERIENCE.

Peritas have an exceptional depth of expertise that spans feasibility studies, master planning, concept & preliminary design, value engineering, design modelling & documentation through to construction support.

By operating specialist sector delivery teams, our operational structure provides our clients with in-depth specialist experience across a diversified portfolio. We regularly provide integrated delivery strategies with shop detailers & other consultants to offer our clients reduced schedules.

Peritas provide all forms of **civil, structural, construction engineering and high-performance floor design** across the following sectors:

INDUSTRIAL

- Warehouses/workshops
- Cold storage & High-bay
- Cyclonic structures

COMMERCIAL

- Government facilities & Offices
- Shopping Centres & retail outlets
- Hospitality
- Aged care & Retirement living
- Multi-storey car parks
- Modular structures

LAND DEVELOPMENT

- Industrial land development
- Residential land development
- Masterplanning & feasibility studies
- Water resources & management

MINING

- Non-Process Infrastructure
- Process Infrastructure structural
- Laboratories

INFRASTRUCTURE

- Construction Engineering
- Temporary Works
- Transport design
- Roads & Bridges

MIXED-USE

- Medium to High-rise buildings
- Heritage buildings
- Motorsport Facilities
- Sports & Recreation facilities
- Schools

Oleg Omelchuck
**Head of Civil
Engineering**

Dan Coward
**Head of Structural
Engineering**

Ben Howie
**Structural
Engineering Manager**

Yashved Sewnun
**Structural
Engineering Manager**

Daniele Galbusera
**Structural
Engineering Manager**

Scott Porter
**Structural
Engineering Manager**

Andrew Jens
**Lead Structural
Engineer**

Pascal Heekeng
**Lead Civil
Engineer**

Bradley Aggis
**Structural Drafting
Manager**

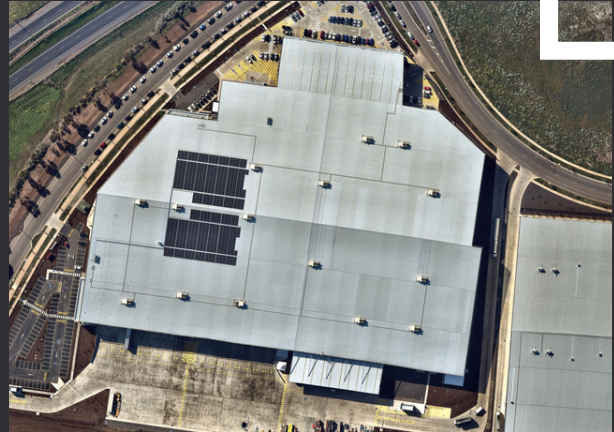

Daniel Ayres
**Civil Design
Manager**

OUR SECTORS.

INDUSTRIAL

The Industrial market has been the cornerstone to Peritas' success. Designing various commercial, logistics and mining services facilities on both east & west coast of Australia. Peritas are renowned for our cost-effective and lightweight steel designs. We deliver high-quality detailed & constructible engineering solutions across a variety of industrial structures.

MINING

We have delivered in excess of 100 projects since 2008 ranging from \$1- \$380 million in construction value. We are renowned in this industry for our quality, service and delivery across a variety of bulk earthworks, non-process infrastructure (NPI), camps, masterplanning and process infrastructure (PI) designs.

INFRASTRUCTURE

Peritas run a full-time construction engineering team who service the majority of infrastructure contractors and alliances. Recently quoted as **"The temporary works Wizards"** our team provides constructible and bespoke solutions to a range of contractors and subcontractors. Our services range from complex construction engineering to heavy lifts and efficient temporary works.

OUR SECTORS.

MIXED-USE

Peritas have provided bespoke & constructible designs on many mixed-use developments since 2008. Ranging from high-rise residential, to aged care & retirement living, to multi-tower & commercial projects, to TOD precincts, racecourse/racetrack design and a number of other multifunctional facilities. Peritas are regularly sole-sourced by developers where we provide quality & reliable design solutions.

COMMERCIAL

Peritas have completed a dynamic range of bespoke government facilities, commercial buildings, hospitality, retail, and health projects across WA & VIC. Over the past 15 years, we have delivered over 150 projects ranging from \$1- \$100 million in construction value. We deliver high-quality detailed engineering solutions across a range of commercial mediums.

LAND DEVELOPMENT

Peritas have a long history with land development projects across Australia and internationally. Over the past 30 years, our senior management team have delivered in excess of 100 projects ranging from \$1 - 400 million in construction value. We are trusted by our long term clients to deliver high-quality detailed engineering solutions across both residential and industrial land development projects.

OUR FEEDBACK.

KERMAN CONTRACTING

Peritas provides Kerman with a reliable and innovative structural engineering service. Their natural flair to offer efficient structural solutions has provided our company with cost effective outcomes for projects in WA. These projects include large warehouses for Tianqi Lithium's Processing Plant in Kwinana and similar structures for Albemarle's Lithium Plant in Kemerton. Kerman highly recommend Peritas as an efficient civil/structural engineering Consultancy and we look forward to our continued relationship.

HODGSON GROUP

Our construction business has been using Peritas for our Structural engineering services since they were formed in 2008. We also been associated with the Directors of Peritas for over 20 years. Our experience on the Rand Cold Store facility was typical of all our projects, wherein Peritas services were provided in a professional, responsive and proactive manner.

SATTERLEY PROPERTY GROUP

The Peritas team has extensive experience in Australia and overseas in property development projects and together with their direct construction experience allows their engineers to input to our early design and masterplanning assessments in a positive way as well as bringing practical and commercial solutions during the later stages of the planning and delivery operations.
